

## CREATING OUR FLASK APPLICATION AND LOADING OUR DATA MODEL BY USING LOAD\_MODEL METHOD

Date	17 NOVEMBER 2022
Team ID	PNT2022TMID52470
Project Name	AI Powered Nutrition Analyst for Fitness Enthusiasts.

Creating our flask application and loading our model by using the load\_model method

```
app = Flask(__name__,template_folder="templates") # initializing a flask app
# Loading the model
model=load_model('nutrition.h5')
print("Loaded model from disk")
```
